Insider Threat Investigations

Morning Session - Foundations and Investigation Frameworks What Participants Will Gain

- A structured framework for conducting insider risk investigations from initiation to resolution
- Practical insight into how DFIR methodologies support insider threat detection and response
- Enhanced ability to identify indicators of insider risk and translate them into investigative actions
- Peer-driven perspectives on real-world challenges and lessons learned across sectors

Afternoon Session - Applied Investigations & Technology Enablement What Participants Will Gain

- Practical experience in conducting insider threat investigations using a structured case study approach
- Familiarity with how behavioral analytics and monitoring tools support investigation and decision-making
- Improved capability to translate alerts and anomalies into actionable investigative leads
- A clearer understanding of how to operationalize insider risk detection and response within their organization

📅 Wednesday, 23 September 2026

🕒 9.00 AM - 4.00 PM

📍 Deloitte Toronto, 5th floor, Bay
Adelaide East
8 Adelaide Street West

OUR FACILITATORS

Daniel Bertrand

CInRM CoE, Associate
Instructor

Mr. Bertrand retired from public service with over 35 years of experience in law enforcement and federal investigations, including service as an Officer of the Royal Canadian Mounted Police (RCMP).

With a background in computer forensics, Mr. Bertrand continues to expand his expertise, now focusing on the integration of artificial intelligence applications into intelligence and security practices.

Denis Desnoyers

CInRM CoE, Associate
Instructor

Denis is an Associate Instructor and retired Superintendent with over 35 years of experience in the Royal Canadian Mounted Police (RCMP).

In Denis' career with the RCMP he held the following notable positions, including:
• Officer in Charge of Sensitive and International Investigations, Contingent Commander, Haiti, Senior Investigator Elections Canada, Officer in Charge Ottawa Detachment, and Officer in Charge Integrated Market Enforcement Operations.

Dr. Deanna Caputo

MITRE Chief Scientist for Insider Threat Capabilities, Senior Principal Behavioral Psychologist

Dr. Deanna Caputo is the Senior Principal Behavioral Psychologist at the MITRE Corporation, applying her deep expertise in the behavioral sciences to insider threat efforts across a very broad work program.

Dr. Caputo is an internationally recognized expert in insider threat, and at the intersection of cybersecurity and behavioral science. She has 25 years of experience designing, conducting, and analyzing research with human participants using experimental, quantitative, and qualitative analyses.

Rob Schuett

DTEX, Director of Insider Intelligence and Investigations (i3)

Rob Schuett is the Director of Insider Intelligence and Investigations (i3) for DTEX Systems, the global leader for insider risk management.

Rob has more than 20 years experience in Cyber National Security as an FBI Special Agent, Supervisory Special Agent, and various technical and services roles at large public organizations. Rob has also built and delivered numerous intelligence services across Mandiant and Google.

Austin Whisnant

DTEX, Principal i3 Insider Threat Analyst

Austin is a Principal Insider Risk Analyst at DTEX, where she works primarily with the U.S. public sector on insider threat analysis, applied research, and training.

Previously, she was a Senior Researcher with the Software Engineering Institute (SEI) at Carnegie Mellon University.

Her research interests include machine learning and artificial intelligence, risk analysis, modeling and simulation, and cybersecurity policy and ethics. Her work has spanned large-scale network traffic analysis, cyber workforce training, and statistical approaches to risk assessment.
